

_____tools are instruments used for collecting data while observation is going on.

Observational

_____are used for the measurement of pupils' cognitive, affective and psychomotor behaviours.

Checklist

_____is an observational system which gives brief account of the events on behaviours at specific times.

Anecdotal records

Two types of systematic observation instrument are sign system and _____system

Category

Guidelines for Developing Systematic observation instruments are as follows except_____

Measure attainment of programme objectives

The following subjects are to be used for observation except_____

Nature

The teaching materials one will use in teaching social norms in a pre-school include the following except_____

scrabbles

Good health habits include the following except_____

dance for free body movement

The teaching materials one will use in teaching physical education in a pre-school include the following except_____

Puzzles

The following are the teaching aids to teach social norms except_____

teach children how to weave using palm leaves

The following are the safety rules for children except_____

take part in simple games

Five teaching materials for teaching physical /health education are as follows except_____

use stories/songs to explain various customs/festivals

The following records kept by pre-school Headteacher/headmistress are as follows except_____

anecdotal record

The following points should be considered when preparing a timetable except_____

Consider the ability of students

_____book is made to back up the existence of any school

Education law

The book which is for the class teacher to record what he has taught to the pupils during the week is known as_____

record workbook

There are many ways pre-school records can be abused by teachers they are as follows except_____

Poor funding

_____ is the process of establishing the status of the performance of an individual or group in a given task usually with reference to the expected outcome

Assessment

_____ item is one of the most popular item formats used in educational assessment

Multiple choice

Four uses of test are as follows except_____

aptitude purpose

_____ technique of the scoring an essay involves the reading of the entire answers to a question and then the general impression is converted into a numerical score and then awarded

Global

Characteristics of continuous assessment include the following except _____
placement

The rationale for continuous assessment include the following except _____
they constitute the subject matter

Ways of assessing a pre-school child are as follows except _____

essay test

The art of looking out for and recording the presence or absence of verbal and non-verbal behaviour of a person or group of persons is called _____

Observation

Early Child Education include the following except _____

primary

Records kept by pre-school headmaster are as follows except _____

lesson plan

_____ the process of judging or forming an opinion about something

Assessment

Tools for observation are as follows except _____

Observation schedule

The test which has a table of norms is called _____

standardized test

The test which involves the measure of motor or manual responses of an examinee who is expected to manipulate some concrete materials is called _____

performance test

A set of questions or exercise given to pupils after they might have been taught to measure what they learn from a teaching session is called_____

test

For assessing cognitive abilities_____ is the only instrument commonly used by the classroom teacher

test

Bloom's highest taxonomy level of cognitive skills is _____

evaluation

The lowest level of Bloom's taxonomy of cognitive skill is_____

knowledge

{100:SHORTANSWER:%100%three}three

{100:SHORTANSWER:%100%five}five

Early childhood education will inculcate in the child a spirit of enquiry and
0000

Creativity

One of the purposes of pre-primary education is to prepare the child for the
0000 level of education

Primary

0000 education is the education given in an educational institution to children prior to their entering the primary school.

Early childhood

0000 behaviours are difficult to evaluate using paper and pencil tests.

Non-cognitive

The act of looking out for and recording the presence or absence of rebel and non-rebel behaviours of a person or group of persons is called 0000

Observation

An 0000 is a person trained to look out for the occurrence or absence of behaviour.

Observer

0000 setting includes the classroom, home of the child, playground, school garden, library or laboratory.

Natural

0000 tools are instruments used for collecting data while observation is going on.

Observational

0000 is a list of characteristic behaviours or action relating to one's personality traits and performance which the teacher checks off

Checklist

An **observational** schedule is an instrument with which events that are directly observed as they occur, are recorded and the information is analysed for the purpose of decision-making.

Observational

Two types of observational schedule are Anecdotal records and **systematic observation**

systematic observation

category

List of subjects in year 4 to be used during observation are: .Language / Communication skills, Mathematical skills, Scientific and **art**

Reflective Thinking

Engaging in conversations with teachers /peers is an example of **communication** skills

speaking

There are two types of recording which are records kept by pre-school Head teacher/headmistress and those kept by the **teacher**

teacher

The book that can one day become an important historical account for the school is known as **log book**

Log book

The aim of **timetable** is to regulate the school activities

timetable

{100:SHORTANSWER:%100%consumable stock}consumable stock
{100:SHORTANSWER:%100%non-consumable stock}non-consumable stock
Cash book records monies that come in as well as monies that go out of the school.

Cash

The record which keep the presence or absence of all the pupils in a particular class on daily, weekly or termly basis is called **attendance register**

Attendance register

Report cards is what is prepared by the teacher at the end of each term and given to the pupils who will in turn take them to their parents

Report cards

The book that contains the daily preparation of the teacher for the different subjects to be covered and the activities to be carried out for each day is called **lesson note**

lesson note

{100:SHORTANSWER:%100%affective}affective
{100:SHORTANSWER:%100%psychomotor}psychomotor
{100:SHORTANSWER:%100%qualitative}qualitative
{100:SHORTANSWER:%100%quantitative}quantitative
When a preschool teacher collects data on the affective and psycho-productive abilities of the child with a view to ascertain their levels he/she is carrying out a **qualitative assessment**

qualitative assessment

Quantitative aspect of assessment usually takes care of cognitive tasks of a child in form of all his/her performance in the school subjects.

Quantitative

0000 refers to a set of questions or exercises given to pupils after they might have been taught to measure what they learnt from a teaching session

Test

0000 is a table indicating the topics covered and the objective being measured

Table of specification

{100:SHORTANSWER:%100%global scoring}global scoring

{100:SHORTANSWER:%100%analytic scoring}analytic scoring

0000 are used to specify the attainment of certain standards and they are used to indicate the learning potential of a child

Grades

A method of determining the final grade for a given period of time through a series of periodic assessments comprising test and non-test measures is called 0000

continuous assessment

The objective of showing pictures to nursery pupils is to motivate 0000 learning.

Creative

Observer performs three duties such as participating, observing and 0000

Recording

When the majority of questions tends to be fuller and more appropriate for the time allowed between question and response is testing 0000

difficulty level
