

Question <p>The capacity of 3.5 inch floppy disk is</p>

Question <p>ALU means _____</p>

Question <p>The second generation computers were programmed using _____ Language</p>

Question <p>The binary system has _____ digits</p>

Question <p>_____ is the exact value of megabytes in bytes</p>

Question <p>The Full meaning of RAM is _____</p>

Question <p>Computer Speakers are both Input and _____ devices</p>

Question <p>_____ named computer application a tool?</p>

Question <p>The Computer as a Tutee means it is a _____</p>

Question <p>ARPA means _____</p>

Question <p>HTML stands for _____</p>

Question <p>E-mail means _____</p>

Question <p>The first generation computers were programmed using _____ Language</p>

Question <p>_____ invented "The Stepped Reckoner" which utilised the principle of multiplication through repeated addition</p>

Question <p> In MICR, M stands for _____</p>

Question <p>_____ Boole developed the Boolean Algebra</p>

Question <p>What is the full meaning of ROM is _____</p>

Question <p> _____ are programs that tells the computer what to do</p>

Question <p>_____ language was used in the First Generation Computer</p>

Question <p>The Chief Component of the first generation Computer was _____</p>

Question <p>It is the duty of the _____ to break the curriculum into schemes</p>

Question <p>In planning the scheme, the _____ planners are to categorise curriculum into years</p>

Question <p>The Speed of the Printer is limited by the _____ used</p>

Question <p>The full meaning of the acronym CD-ROM</p>

Question <p>In MICR, C stands for _____</p>

Question <p>The Brain of any computer is the _____</p>

Question <p>To teach Computer effectively, we must make it _____ centred</p>

Question <p>_____ generation of computers was built on Artificial

Intelligence</p>

Question <p>The first generation computers used _____ for their circuits</p>

Question <p>The _____ writes the system software</p>

Question <p>The transistor was invented by _____ in 1948</p>

Question <p>_____ computer combines both the features of Digital and Analogue computers</p>

Question <p>www means _____</p>

Question <p>URL means _____</p>

Question <p>Google was developed at _____</p>

Question <p>The programs that tells the CPU what to do are called _____</p>

Question <p>The following are graphic packages except _____</p>

Question <p>In computer lesson preparation, computer is any of the following except _____</p>

Question <p>The following is an input device except</p>

Question <p>Which of the following is a part of the Central Processing Unit?</p>

Question <p>Computer science can be taught effectively by making it _____ centred</p>

Question <p>The following are the usefulness of scheme of work of computer science methods except _____</p>

Question <p>The chief component of first generation computer was</p>

Question <p>The following is a characteristic of first generation computers</p>

Question <p>The following is the full meaning of the acronym CD-ROM</p>

Question <p>Which of the following is referred to as the computer brain ?</p>

Question <p>The characteristics of the 5th generation computers include the following except</p>

Question <p>Scheme of work is useful as the _____</p>

Question <p>The following is an advantage of computer based learning </p>

Question <p>The following is a function of the CPU</p>

Question <p>In selecting a software, the focus should be on _____</p>

Question <p>The idea of the Internet started in </p>

Question <p>The following are examples of fourth generation computers except ____</p>

Question <p>The _____ is an input device</p>

Question <p>The following are areas of benefits of the Internet except _____</p>

Question <p>The _____ package is not used for preparation of Educational instruction</p>

Question <p>What do input devices do?</p>

Question <p>The _____ operating system (OS) is used in a single environment</p>

Question <p>The computer memory is described in terms of </p>

Question <p>The following are parts of system unit except _____ </p>

Question <p>The following are types of LOGIC GATES except _____</p>

Question <p>The underlisted software are system software except _____</p>

Question <p>The _____ operating system (OS) is used in a multi-user environment</p>

Question <p>The following are computer tutor applications except _____</p>

Question <p>The following are functions of the CPU except ____</p>

Question <p>Spreadsheet should be considered for the following except _____</p>

Question <p>The following are examples of database management packages except _____</p>

Question <p>The _____ operating system (OS) is used in a network environment</p>

Question <p>The computer based learning empowers students to _____</p>

Question <p>In selecting a software, the focus should be on </p>
