

Question FBQ1 : When introducing a new topic which covers a wide range, the best teaching method to employ is _____
Answer: lecture

Question FBQ2 : The ways used in teaching materials to students can be described as _____
Answer: methods

Question FBQ3 : Which method can be said to be teacher dominated approach to teaching? _____
Answer: Lecture

Question FBQ4 : _____ method narrows the gap created between students due to individual differences
Answer: Project

Question FBQ5 : _____ method must have been employed when solutions are arrived at through participants' analysis and synthesis
Answer: Discussion

Question FBQ6 : The role of the teacher in discussion method is to _____ views of learners towards objectives
Answer: Direct

Question FBQ7 : _____ method will encourage students' active involvement in learning
Answer: Discussion

Question FBQ8 : The most appropriate method of teaching for Agricultural Science is _____
Answer: field trip

Question FBQ9 : A good way of showing technical handling of Agricultural tools, machines and equipment is by _____
Answer: Demonstration

Question FBQ10 : _____ has the advantage of attracting the rapt attention of learners
Answer: Demonstration

Question FBQ11 : Modified lecture activities are designed to create a _____ in the lecture
Answer: break

Question FBQ12 : _____ is involved when the learning process is designed to engage the learners in direct experiences which are tied to real world problems and situations in which the instructor facilitates rather than directs
Answer: experiential learning

Question FBQ13 : During each of the steps of a particular learning process, students will engage with the content, instructor, each other and _____
Answer: self-reflect

Question FBQ14 : Making products or models is an example of _____
Answer: experiencing

Question FBQ15 : What stage of Experiential Learning is "doing"? _____
Answer: 1st (first)

Question FBQ16 : In the process of experiential learning, "so what?" is the same as _____
Answer: Generalizing

Question FBQ17 : Students learn from the learning process as their role, and

become open to change which include more reliance on _____

Answer: peers

Question FBQ19 : _____ can help to reinforce and extend the learning process.

Answer: Debriefing

Question FBQ20 : An experience that allows students to design and develop a project in which they apply acquired knowledge and develop new skill is _____

Answer: practicum experience

Question FBQ22 : The following facts describe _____ i. learners' understanding may be limited to what is represented in it. ii. It emphasizes major aspects iii. It facilitates recall and retention iv. it is useful in assessing prior knowledge

Answer: concept mapping

Question FBQ23 : _____ method is often touted as the best method of teaching agricultural science.

Answer: problem-solving

Question FBQ24 : In computer assisted instruction, computer programmes are _____ and hardly illustrates concepts with demonstration

Answer: Interactive

Question FBQ25 : _____ can affect the use of computer assisted instruction (CAI) when not available.

Answer: Electricity

Question FBQ26 : Underachievement in science is attributed to _____

Answer: cultural beliefs embedded in prior knowledge

Question FBQ27 : Making it easy for students to negotiate a cultural transition from their life-world into the world of science is by _____ instructional method.

Answer: ethnoscience

Question FBQ28 : _____ are concrete materials and equipment for making agricultural concepts clearer to the learners

Answer: instructional media

Question FBQ29 : Teaching aids should be able to stimulate _____

Answer: Reality

Question FBQ30 : _____ can help to reinforce and extend the learning process.

Answer: debriefing

Question FBQ31 : _____ method can be said to be teacher dominated approach in teaching?

Answer: Lecture

Question FBQ32 : _____ method narrows the gap created between students due to individual differences.

Answer: Project

Question FBQ33 : _____ method must have been employed when solutions are arrived at through participants' analysis and synthesis

Answer: discussion

Question FBQ34 : In computer assisted instruction, computer Programmes are _____ and hardly illustrate concepts with demonstration

Answer: interactive

Question FBQ35 : _____ is involved when the learning process is designed to engage the learners in direct experiences which are tied to real world problems

and situations in which the instructor facilitates rather than directs
Answer: experiential learning

Question FBQ19 : -----can help to reinforce and extend the learning process
Answer: Debriefing

Question FBQ21 : A web diagram for disentangling a concept and making it clear to the learner is _____
Answer: concept map

Question MCQ1 : When considering the use of instructional materials _____ is not so relevant.
Answer: size

Question MCQ2 : When an instructional material is able to appeal to learners, arouse and hold their interests, it tells of its _____
Answer: Appealability

Question MCQ3 : Natural resources, materials, specialists in Agriculture and agro-based industries are all facets of _____
Answer: community resources

Question MCQ4 : In teaching Agricultural science, an extension agent is a good _____
Answer: community resource

Question MCQ5 : Where instructional materials are lacking or inadequate, a good teacher is expected to _____
Answer: improvise

Question MCQ6 : The use of baby feeding bottle in the class serves to solve the problem of none availability of _____
Answer: measuring cylinder

Question MCQ7 : One of the following is not a main thrust of the SSEC and JSEC curriculum _____
Answer: quality education

Question MCQ8 : Entrepreneurship teaching and learning should be encouraged for the following reasons except _____
Answer: it leads to reduction in the level of unemployment

Question MCQ9 : The Agricultural science teachers has the responsibility to emphasize _____ as they teach the subject
Answer: entrepreneurial issues

Question MCQ10 : The role of the teacher in discussion method is to _____ view of learners towards objectives
Answer: direct

Question MCQ11 : When learning process is designed to engage the learners in direct experiences which are tied to real world problems and situations in which the instructor facilitates rather than directs, _____ is involved
Answer: experiential learning

Question MCQ12 : During each of the steps of a particular learning process, students will engage with the content, instructor, each other and _____
Answer: self-reflect

Question MCQ13 : Making products or models is an example of _____
Answer: experiencing

Question MCQ14 : What stage of Experiential Learning is "doing"?

Answer: 1st

Question MCQ15 : In the process of Experiential Learning, "so what?" is the same as _____

Answer: generalizing

Question MCQ16 : All but one is NOT true of experiential learning instructors?

Answer: they allow students to experiment and distort meaningful solutions on their own

Question MCQ17 : Students learn from the learning process as their role, and become open to change which include all but one of these _____

Answer: more reliance on instructor

Question MCQ18 : Which of the following is not a situation that challenges students' methods?

Answer: coordination

Question MCQ19 : The first step in integrating experiential learning in Agricultural science is _____

Answer: plan

Question MCQ20 : To reinforce and extend the learning process _____ can help

Answer: debriefing

Question MCQ21 : An exercise that allows students to design and develop a project in which they apply acquired knowledge and develop new skill is _____

Answer: practicum experience

Question MCQ22 : Which of the following will NOT provide experiential learning?
i. lab work ii .computer assisted instruction iii .discussion iv. Case discussions

Answer: iii.

Question MCQ23 : A web diagram for disentangling a concept and making it clear to the learner is _____

Answer: concept map

Question MCQ24 : All the following are facts about _____ i. learners understanding may be limited to what is represented in it ii. It emphasizes major aspects iii. It facilitates recall and retention iv .it is useful in assessing prior knowledge

Answer: concept mapping

Question MCQ25 : Which of the following is often touted as the best method of teaching agricultural Science?

Answer: problem-solving method

Question MCQ26 : Formulation of hypothesis for solution is the _____ stage a learner passes through to arrive at a solution

Answer: 4th

Question MCQ27 : Which of the following is true of computer assisted instruction (CAI)?

Answer: computer Programmes are interactive and hardly illustrate concepts with demonstration

Question MCQ28 : Which of the following can drastically affect the use of computer assisted instruction (CAI)?

Answer: virus attack

Question MCQ29 : When used often by teachers, _____ could get boring

Answer: problem-solving

Question MCQ30 : Underachievement in science is attributed to _____

Answer: cultural beliefs embedded in prior knowledge

Question MCQ31 : Making it easy for students to negotiate a cultural transition from their life-world into the world of science is by _____ method

Answer: ethno science instructional method

Question MCQ32 : students usually compare new concepts and related common cultural beliefs and sayings and classify them into _____ sayings

Answer: 3

Question MCQ33 : Not allowing condemnation of people's cultural beliefs and sayings is a _____ and _____

Answer: strategy, effective use of ethno science

Question MCQ34 : All forms of aids required by the learner and teacher to achieve educational objectives are referred to as _____

Answer: resources for teaching and learning

Question MCQ35 : Which of the following combination of is NOT acceptable? i. chalk board, text books, pictures. ii. Audio tapes, radio sets, record player. iii. TV recordings, video presentations, journals, audio tapes. iv. Models, newsletters, charts.

Answer: iii.
